## AgriEnICS GRAND CHALLENGE ON ELECTRONICS AND ICT APPLICATIONS IN AGRICULTURE & ENVIRONMENT 2022

AgriEnICS Grand challenge proposes to address only a few critical problems in the domains of Agriculture and Environment. A large number of issues in these sectors remain unaddressed. The "AgriEnICS Grand challenge" program intends to bring a few significant R&D efforts under the AgriEnICS umbrella. The selected applications will be nurtured into marketable products or services. Mentorship, fund, and a suitable platform will be provided to qualified individuals or teams to implement innovative, cost-effective R&D ideas into an actual product.
